SAHEB

MERN STACK DEVELOPER

sahebbca2020@gmail.com | +91 8800281734 | Delhi, India

EDUCATION

CCSU UNIVERSITY, MEERUT
BCA in Computer Science
Sep 2023
CGPA : 7.5

CBSE BOARD
10+2 (INTERMEDIATE)
May 2020
Marks : 88%

SKILLS

FRONTEND
NEXTJS • REACTJS • REDUX
• SHADCN • MUI • TAILWIND

BACKEND
NODEJS • EXPRESS • MONGODB
• MONGOOSE • AUTHJS • RESTFUL
API's

DEPLOYMENT
CLOUDFLARE • AWS *(basics)*
• VERCEL • RAILWAY

LANGUAGES
JAVASCRIPT • C • C++

TOOLS
GIT/GITHUB • POSTMAN • NPM
• VISUAL STUDIO CODE

SOFT SKILLS

CREATIVE • CRITICAL THINKING
• TEAMWORK • QUICK LEARNER

CERTIFICATES

Mern Stack Developer
Javascript
C Programming

LANGUAGE

ENGLISH
HINDI

HOBBIES

CODING • MOVIES • TRAVELLING
• EXPLORING NEW THINGS

WORK EXPERIENCE

DMHCA | Internship   Office
Jan 2024 - April 2024 | 4 Months

- Built **interactive** and **dynamic web apps** using Next.js, ShadCN, and TailwindCSS.
- Improved **code quality** through **optimization** and **performance** tuning.
- Developed robust and scalable **backend APIs** with Node.js and Express.

XALTAM TECHNOLOGIES | Mern Stack Developer   Office
April 2024 - present | 1 Year 4 Months

- Built and maintained **CMS websites** and intuitive **admin dashboards** using React.js and **Material UI** to deliver smooth data management and great user experience.
- Delivered a Kuwait-based **e-commerce platform**, Camouflagekw.com, using **Next.js**, TailwindCSS, and **MyFatoorah Payment System**, and worked with cross-functional teams to meet client needs.
- Improved team **code quality** by leading **code reviews** and sharing **best practices**.
- Currently developing **Grafikhub.com**, a secure and scalable **marketplace** for selling **PSD** and **graphic design templates**, built with **Next.js**, **Auth.js**, **Node.js**, MongoDB, **Cloudflare R2**, and **Razorpay**.
- Deployed applications on **Cloudflare**, **AWS** and **Vercel**, managing **CDN configuration**, **custom domains**, and performance optimization for global users.

PROJECTS

1. STUDYWIRE | an ed-tech full stack project   Live | Github
Oct 2023 - Jan 2024
FULLY FUNCTIONAL ED-TECH PLATFORM THAT ENABLES USERS TO CREATE, CONSUME, AND RATE EDUCATIONAL CONTENT USING THE MERN STACK.

- backend using **NodeJs**, **RESTful API** using **ExpressJs**, **MongoDB** for data storage.
- **Razorpay** integration for secure payment processing.
- Secure authentication using **JWT**.
- Frontend using **ReactJS, TailwindCSS, Redux Toolkit.**
- Dynamic routing using **react-router-dom.**

2. FOODWIRE | a food delivery frontend project   Live | Github
Sep 2023 - Oct 2023
USER-FRIENDLY FRONTEND FOR A FOOD DELIVERY APPLICATION.

- A dynamic and **responsive** Food Delivery web application with **ReactJs**, **Redux Toolkit** for state, **react-Router-dom** for navigation, **TailwindCSS** for modern UI.

3. NETFLIX GPT | a movies recomandation app with AI   Live | Github
Feb 2024 - Mar 2024
DEVELOPED AI-POWERED MOVIE RECOMMENDATION AND STREAMING APP, LIKE NETFLIX, USING REACT, FIREBASE AND GPT API'S.

- Built using **ReactJs** for a dynamic and responsive user interface.
- **Firebase** employed for secure user **authentication**.
- Integrated **GPT API** for cutting-edge **AI-driven** movie recommendations.
